OBJECTIVE

Computer Science student with a strong foundation in programming, database systems, and computer networks, and hands-on experience in mobile and web application development. Driven by a constant desire to learn, grow, and adapt, actively expanding skills in full-stack web development and AI. Committed to continuous improvement and staying up-to-date with emerging technologies to build meaningful, high-quality solutions.

EDUCATION

Bachelor of Computer Science, National University of Computing and Emerging Sciences, Islamabad

CGPA: 3.5

2022 – 2026

EXPERIENCE

Associate Software Engineer, RedCoast

Jun 2025 – Present

Professional Flutter development; built an image generation app with Flutter and Firebase; currently working on a client's web project, majorly frontend (Next.js).

AIMs Lab Intern, AIMs Lab

Dec 2024 – May 2025

Web scraping with Selenium and BeautifulSoup; research on deepfake AI models and dataset collection.

Mobile Development Intern, Cyblytics Lab

Jul 2024 – Aug 2024

Firebase backend and Java-based mobile frontend development.

Supply Chain Intern, PepsiCo

Jul 2024 – Aug 2024

Data management workshops (MS Access, dashboards); product analysis and machinery categorization.

SKILLS

Programming Languages

C, C++, Java, Python, C#, Assembly

Databases

SQL Server, MongoDB, Firebase, PostgreSQL

Version Control & DevOps

GitHub, Git, Docker, Kubernetes

App & Web Development

HTML, CSS, JS, FastAPI, Flask, Flutter, Native Android, Next.js, React.js

Others

Windows Forms, Matlab, Android Studio, Web Scraping, Linux, Google Cloud, n8n, Solidity, SDLC, Figma, GenAI

Soft Skills

Communication, Project Management, Problem Solving, Teamwork, Leadership, Time Management

ACHIEVEMENTS

Dean's List in 4th, 5th, 7th and 8th semester.

Silver Medal in 7th Semester, FAST University.

PROJECTS

ForeSyte-Cheating detection System(FYP). Computer Vision, YOLO, dataset collection, FastAPI, React.js.

Image Generation Mobile App. Flutter, Firebase Functions, Firebase db, OpenAI API, Stripe Integration.

SmartKnock Doorbell Application. Mobile application using Java, Android Studio, Firebase, and ESP-32.

Flex Trainer. Gym management system built with .NET, C#, SQL Server, and Windows Forms.

Event Management System. Web application using HTML, CSS, JavaScript, Flask, and FastAPI.

Dockerized Event Management Application. Deployed with Docker, GitHub, Kubernetes, and Flask API.

Decentralized Crowdfunding DApp. Built with Hardhat, Solidity, and React.

Crypto Trading Bot. Trading View webhooks, Python, Solidity.
